Lineup and Equipment	2
Stage Plot	3
Input List	4
Backstage Rider	5

Lineup and Equipment

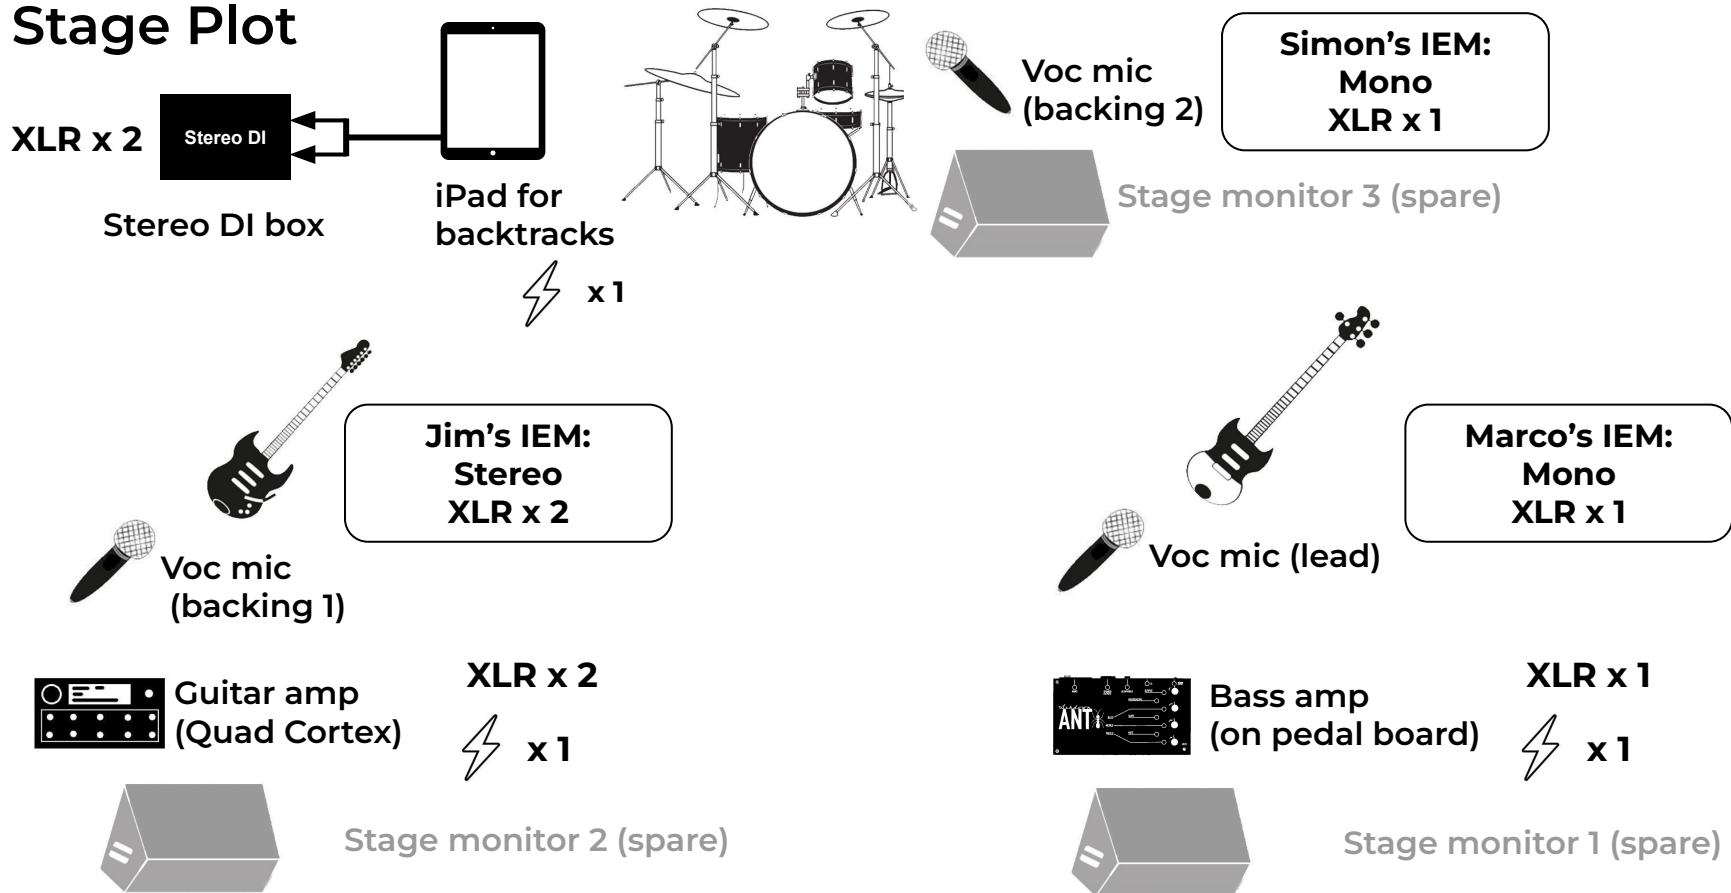

The musicians bring their own backline (instruments, amps and instrument cables but not XLR cables).

The venue needs to provide:

- **FOH engineer**
The band shall be provided with contact information to the engineer ASAP when the show is confirmed
- **PA system**
A sufficient well-functioning PA system + mixer should be available at the venue
- **Microphones + stands (see page 4 for input list)**
- **Stage monitors (spare)**
All 3 musicians use their own wired IEM:s, unless otherwise agreed upon. However, we still prefer that stage monitors be provided by the venue as a backup during performances
- **Stereo DI for backtracks**
We use an iPad for backtracks, connects to the venue's stereo DI via a 3,5 mm mini-jack to 2 x 6,3 mm TS jack cable (cable at our disposal)

Name	Instrument
Marco Luponero	Vocals, bass
Jim Heikkinen	Guitar, backing vocals
Simon Grundvall	Drums, backing vocals

Stage Plot

13	Backtrack L (click)	XLR (stereo DI)	
14	Backtrack R (music)	XLR (stereo DI)	

Backstage Rider

The band and crew don't have any huge requirements for the backstage area, but **a private area with comfortable seating for at least 4–5 people** is very appreciated. **A bathroom with a mirror** would also be good.

The following items should be available in the backstage area:

- **8+ bottles of still water (unopened)**
- **4+ snack items such as müsli bars/peanuts/chips (crisps) etc.**
- **Beer is always very much appreciated (also a couple of alcohol-free bottles)**
